The Road Safety Department (RSD) was established as a lead agency to formulate, implement and coordinate road safety policies, plans and regulations. RSD is also responsible in coordinating road safety programmes involving other agencies and to educate and increase the awareness of road users on the importance of road safety and ultimately reduce deaths and injuries caused by road traffic crashes. RSD is also the Secretariat to the Road Safety Council of Malaysia and the Malaysia Global Road Safety Partnership (GRPS) Foundation (non-governmental organisations).
