Our Activities:

- ✓ Advocacy on Road Safety.
- ✓ Awareness on Emergency Care.
- ✓ Active Rehab on accident victims.

WE EMPOWER THE SPINAL CORD INJURED TO GET BACK ON THE ROAD !

- **India's road accident victims do not get medical care in critical first hour**
- **First responders are untrained to provide medical assistance**
- **Passersby are apprehensive of legalities hence refrain from helping**

The Ability People (TAP), it is a nonprofit organization registered under the Societies Registration Act, People with Disability Act and the National Trust (Ministry of Social Justice & Empowerment, Govt. of India) It is a secular, apolitical and independent body founded to create a measurable and sustainable impact in the lives of citizen of India.

TAP's mission is to promote 3R's - **R**oad Safety, **R**ight to Emergency Care and **R**ehabilitation for accident victims all over India through **Project Bhavishya**.

Road deaths and injuries in India are publicly glaring, while road safety is professionally lacking and politically missing. We need to make efforts to change this scenario. Global experience reveals that road crashes are predictable and preventable. Implementing road safety in India needs a change in 'mindset' by moving from a 'reactive approach' to a proactive approach'. It requires developing and implementing strong mechanisms for prevention, trauma care and rehabilitation.

In this regard, we request every individual to partner with us towards a Nation wide effort to educate all sections of society to become aware and implement road safety requirements.

Many countries have shown sharp reductions in the number of crashes and casualties by taking action including, setting, raising awareness of and enforcing laws governing speed limits, alcohol impairment, use of seat-belts, child restraints and crash helmets, formulating and implementing transport and land-use policies that promote fewer, shorter and safer trips, encouraging the use of safer modes of travel, such as public transport and incorporating injury prevention measures into traffic management.

The Ability People brings together governments, civil society and businesses to address this humanitarian crisis. We earnestly request stakeholders of all States to partner with The Ability People in revolutionizing the road safety scenario in India.

It only takes a split second to prevent an accident - if only we can make a split second decision to take our own safety and the safety of others into our hands through Project Bhavishya !

The time to change is NOW.
